

Importing Bookmarks into Mozilla Firefox

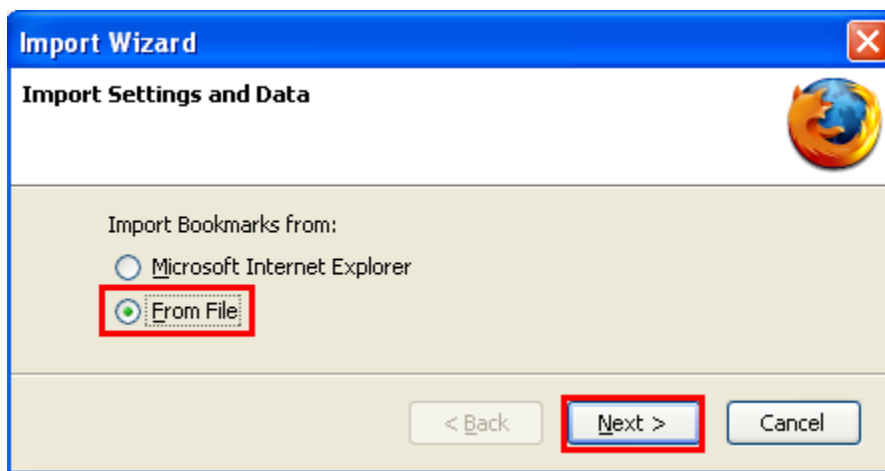

1. With Firefox open, from the **Bookmarks** menu, click on **Organize Bookmarks...**

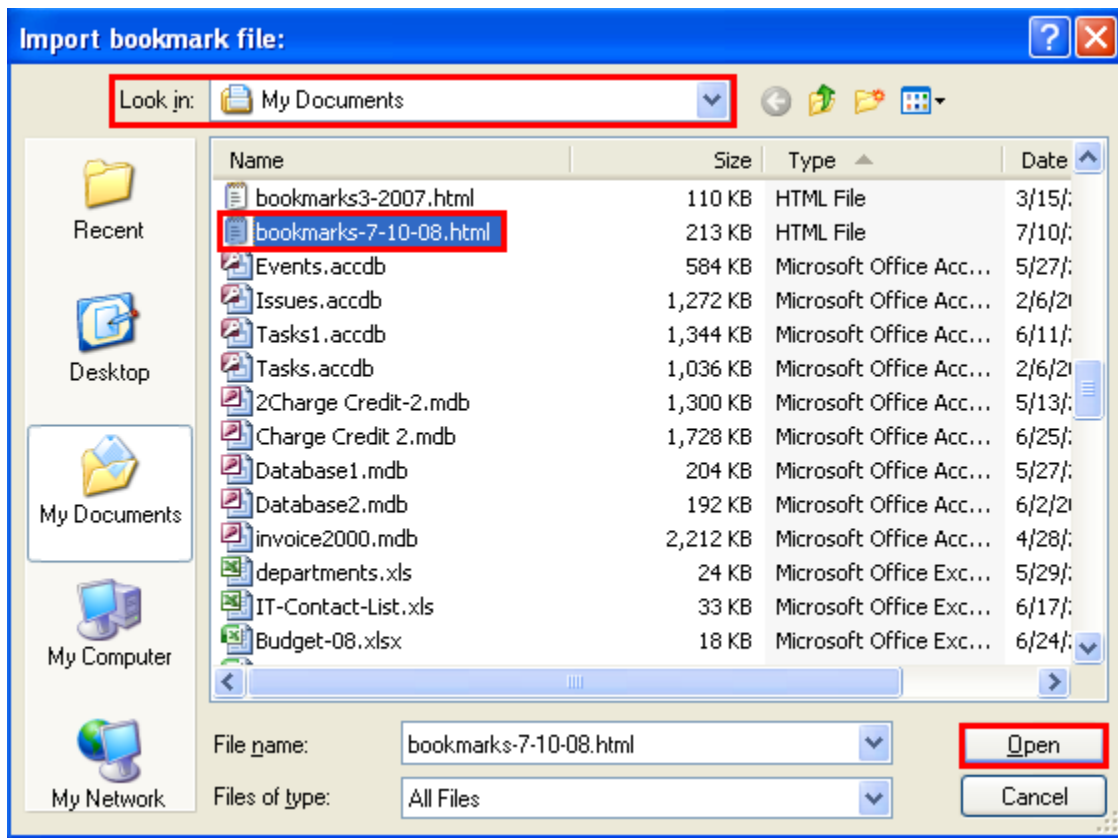

2. In the **Bookmarks Manager**, from the **File** menu, click on **Import...**

3. This brings up the **Import Wizard** which will import your settings and data. Where it says, **Import Bookmarks from:** make sure you click in the radio dial to select **From File** and click **Next >**.

4. In the **Import bookmark file:** window, make sure you are looking in **My Documents** to find your .html file and then click **Open**.

5. Voila! Your bookmarks have been imported.
