Welcome to your first pre-Lab for this course. The pre-labs are designed to help you focus your attention on the upcoming laboratory exercise. They are each worth 10 of the 35 points for each lab because I want to stress how important it is to come to lab prepared. Each pre-lab will be due at the beginning of class on the day of the scheduled lab. I hope you enjoy the labs and have fun exploring!

1. What is the purpose of this lab?

2. Please BRIEFLY outline the procedure for this lab in the space provided.

3. How do you calculate the magnification for a compound microscope?
