

Weekly Course Calendar

This is the weekly schedule for PSY 100. Note that specific details about **online activities** and topics for **group discussion** will be on our class website under "Weekly Assignments" within the folder for the week they are assigned. Remember, you are expected to post to the group discussion on at least three different days per week, and **two of those days must be during the Monday- Friday week**. Your third day may be on a weekend day, but keep in mind that our week goes from Monday to Sunday, so posts on Sunday may not be read by other classmates. The guidelines below for group discussion days are a suggestion for managing your time. See the syllabus for details about grading requirements for group discussion.
